

Gulf of Mexico

Runway 5, 14, and 32 arrivals remain at least 1 mile off shore, intercept final or base over the Gulf.

ALL OPERATIONS ARE STRONGLY DISCOURAGED FROM 10 PM TO 7 AM

Runway 23 arrivals turn to final east of I-75.

Please limit all reverse thrust to "idle reverse thrust" when permitted by safe aircraft operation.
Please use the full length of all runways for takeoff and landing.

RECOMMENDED TURBINE FIXED-WING AIRCRAFT OPERATING PROCEDURES

All departures follow the NBAA or manufacturer's recommended close-in noise abatement departure procedures.
All arrivals remain as high as possible as long as practical.
No maintenance runups 10 pm to 7 am.

NOTE: These procedures are not intended to preempt the responsibilities of the pilot-in-command for safe aircraft operations. Recommended procedures are not intended to conflict with instructions from ATC or those which are the exclusive authority of the FAA.
