Ms. Terrill said that more detail will be provided in the future and cited the successful results from staff's participation at the Florida Airports Council (FAC) Annual Conference as well as the NBAA's Schedulers and Dispatchers Annual Conference. Chair Messer said that Commissioner Rideoutte raised a good point and added that in reporting the outcomes, Board members may provide additional support when needed. Commissioner Dustin agreed and said it would be helpful for staff to share the priorities of FAC members with the Board.

In reference to the High-Level Summary for January 2019, Commissioner Dustin expressed concern about the voluntary curfew rate which was down 5.7% compared to January 2018. Ms. Terrill clarified that the data referred to the number of voluntary curfew operations and was not a compliance issue.

On the third page of the Leadership Team Report, Commissioner Rideoutte requested further clarification regarding the ongoing warranty issues from the HVAC replacement project. Mr. Keith said that we are having temperature control issues on the second floor of the GAT and that the retainage amount on the contract was being withheld until the issues are resolved.

In reference to the Human Resources Metrics Report, Commissioner Rideoutte noted that under the Employment table for FY19, there were 86 non-seasonal positions budgeted but only 77 actual positions were filled. He questioned if there was any problem attracting sufficient talent or was it due to timing.
